Liza Fetissova is inviting you to discover Loren's Secret Garden.

Secret Garden... An exhibition as an **"Experience"** .

An invitation to push open the door of a private place, a place usually hidden from view and judgment, where works of art slip into the density of the contents of a home. A living space that opens up to you, to discover the very personal story of its owner. Jardin Secret...

Secret Garden... An exhibition as a **"Confidence"**.

The confidence of the one who welcomes in his or her intimacy and who, during several meetings with the curator Liza Fetissova, abandons himself or herself and delivers to her the significant

episodes of his or her life ... Stories that will guide the choice of works of art, then staged in his or her habitat, in harmony and in conversation with the place, the host, his or her history. Jardin Secret is a psychological, subjective and above all creative interpretation of a host dialoguing with the works of art

Secret Garden... an exhibition as a **“Voyage”**.

An intimate journey that takes you far from the “you” of today... Towards your memories and the shadows or lights of the past. A journey to always bring you to the best version of yourself, the lightest, the most enlightened. It is an intimate, immersive and tailor-made exhibition, in which the owner of the place becomes the source of information and inspiration for the selection of works of art that will embody it.

Jardin Secret takes you on a **sensory walk**. You walk into the house or apartment of a stranger. You immerse yourself in an unknown space where objects, furniture, smells can evoke unexpected associations, sometimes very personal. And the walls, the corners, “unroll” the works of art like the pages of a fiction that turns around you. The works, the place, its owner and the objects that populate it: all become the actors of the Secret Garden.

Sometimes it disturbs, but above all, a stroll in a Secret Garden will enlighten you.

Secret Garden... An exhibition as a **“Gift”**.

A real gift chosen with love... You know, the one you buy after much thought.

Secret Garden is ultimately, above all, an encounter with yourself.

Come inside.

Loren, Lolie,
What's your story ?
What's your secret ?
What's inside ?

Flying, dying,
Trying, crying,
All or nothing
Tout ou rien.

Hoping, hopping,
Searching, preaching,
Reaching sometimes
To the stars,

Dreaming, thinking,
Wanting, needing,
So much love
To give and take.

Cut to grow
And to glow,
Bud will open,
Take the risk !

Lovely, funny
Sunny Nonie
Smiles at you.
It's a new disk !
